## Automatic welding unit

### Electric weld device

Welding of steel strapping by using TIG-welding, in conjunction with a strapping head in a strapping machine.

The TITANARG electric welding device is the multifunctional solution for applications in the industry sector with MMA or TIG

### Technical Data

|                     |                                                                |
|---------------------|----------------------------------------------------------------|
| Power supply system | 400 V 400 - 525 V                                              |
| Connected load      | 10.6 kVA                                                       |
| Dimensions          | 555 x 287 x 333 mm (L x W x H) 21.9 x 11.4 x 13.1" (L x W x H) |
| Weight              | 22,5 kg 49.6 lb                                                |

### Strap/Joint

|               |             |
|---------------|-------------|
| Type of strap | Steel strap |
|---------------|-------------|

### Other technical data

- Welding capacity: max. 350 A
